Global Institutional Profiles Project

University of Monastir

Thank you for your continued participation and support of the global Institutional Profiles project!

Introduction

The global Institutional Profiles project creates accurate and comprehensive profiles of research institutions around the world.

With reliable and objective data on each institution, users of the data in these profiles and elsewhere are better equipped to:

- validate and quantify executive and strategic decisions
- support marketing, publicity and other promotional efforts
- supplement rankings and other assessment initiatives with additional indicators of excellence

By working closely with a multitude of personnel from universities and other related institutions around the world, we have been able to create the richest, clearest profiles to date—portraits of facts and figures on research activity, funding, students, and staff, supported by verifiable indicators from Clarivate™.

About the Report

This Profile supplements the Institutional Profiles data available in *InCites™* and is provided to organizations contributing to the Institutional Profiles project. It is based on data from three main sources: data provided by the institution directly to Clarivate; data on the institution's publications and citations from Web of Science™; and the results of the annual Academic Reputation Survey.

For more information please see:
